OBJECTIVE

Detail-oriented Web Developer with strong hands-on experience in UAE, building responsive WordPress and custom PHP websites. Proficient in Elementor, WooCommerce, JavaScript, Tailwind CSS, React.js and MySQL with expertise in customizing themes, optimizing SEO and delivering innovative, user-focused solutions. Seeking a new opportunity to apply my expertise and grow technically.

EXPERIENCE

Web Developer | April 2025 – Oct 2025

Digistromer - Business Bay, Dubai

- Built and hosted responsive WordPress websites using Elementor, customized themes and plugins, implemented on-page SEO with Yoast SEO plugin, handled site migrations and backups using All-in-one-WP Migration plugin.
- Built a dynamic real estate website using the Houzez theme, enabling property search, filters and booking features.
- Developed a Limousine rental website using the VikRent plugin, allowing users to check availability and book via WhatsApp with auto-filled details.
- Customized WordPress themes and plugins using PHP to modify layouts and add features.
- Revamped website with a new theme to improve performance and create a modern, user-friendly design.
- Implemented website security using the Wordfence plugin to protect against malware, spam and unauthorized access.
- Managed social media content creation and scheduling including posts, videos and reels across every platforms.
- Customized website logo using Adobe Illustrator to match client branding and design guidelines.
- Communicate directly with clients to understand their requirements.

Freelance Web Developer | 2023 – 2024

- Built and hosted a React.js website for a medical & dental supplies company to showcase their services, integrating a contact form using EmailJS for direct inquiries.
- Developed a dynamic PHP & MySQL website with an admin panel for a digital wallpaper printing business, enabling easy content management like adding, editing and deleting items.
